

MY CAREER INSPIRATION.

Think about someone with the career and life you admire. Do some research.

What values, beliefs and ideals does the person live by?

What do they do for a career?

How did they get into their career or get the skills they needed?

What achievements are they proud of?

What challenges did they overcome to get where they are?

How did they overcome their challenges?

What qualifications do they have?

What are some of their daily routines?

Who helped them?

What skills or personal qualities do you share?

What skills or personal qualities would you like to share?

What can you learn from them?
